we are death in rome. and we play neofolk. on this 7" we present cover versions of two songs you would never have expected to hear this way: "na zare / на заре" (original by alliance / альянс. ссср, 1987) one of the greatest russian new wave synth-pop hits. on the flip side you hear the country folk hymn "just dropped in" (original by kenny rogers. usa, 1967) in collaboration with king dude. it's a clash of styles and genres, a clash of the psychedelic freedom of the west and the nuclear downfall of the east. celebrate our apocalyptic pop vision at dawn, until the end.
